DECATUR, AL (WAFF) - Parkway Medical Center in Decatur received a big honor. The hospital is ranked in the top 1 percent of hospitals in the nation.

The honor comes from a Nashville based organization Data Advantage. The group claims this is the first comprehensive scorecard. They used a hospital value index to label Parkway as the 28th best hospital in the country.

Hospital CEO, Tim McGill is very proud of his staff, doctors, volunteers and board members.

"We've been a consistent facility over the years," said McGill. "Our doctors are very focused on quality and satisfaction for our patients on a day in and day out basis."

McGill says the priority must be the patients.
